

TAD Lab – Machine learning project - 2019

Titanic survivals prediction

Competition Summary:

In this project, you have to try all machine learning algorithms in order to get the highest possible accuracy in predicting the survivals.

Rules and Guidelines:

Groups of max 3

No cheating

Evaluation Criterion:

Highest accuracy and best visualization for the features.

Winner's Prize:

Team photo will be on our website in the hall of fame.

Special certificates.
